Atlantic Fish was founded in 1960, by Steve Manolakis, who serviced retail stores and local restaurants. It became apparent there was a need for more than fish and seafood at local markets and dining establishments. The business grew, with service and quality as key imperatives, transitioning from a specialized distributor to a broadline distributor at present day.

Atlantic Food Distributors is owned and operated by second generation family member, Stan Manolakis, who purchased the company from his father in 2001. Today, Atlantic Food Distributors has grown to become a strong independent with over 10,000 items servicing over 1,200 customers in all segments of foodservice with a service area that has grown beyond Canton, Ohio, serving all of Ohio and Western Pennsylvania.
